Product Specification Sheet

Rabbit Fibrinogen
Product Number: CT 17
Aliquot: 25 mg
Lot Number:
Storage: -80°C

DESCRIPTION: This is fibrinogen purified from plasma using a multi-step precipitation process followed by SPE extraction with immunoaffinity resins.

MOLECULAR WEIGHT: ~330 kDa

CONCENTRATION: 5.6 mg/mL determined spectrophotometrically.

STORAGE BUFFER: 0.01 M HEPES; 0.3 M NaCl; 10 U/mL Trasylol; pH 7.4

STORAGE: -80°C **AVOID REPEATED FREEZE THAW CYCLES**

PURIFICATION: Purified using a multi-step precipitation process followed by SPE extraction with immunoaffinity resins.

NOTES: This product is >90% clottable and is homogenous on 4-20% SDS-PAGE gels.
